PROJECTS

Food App

I have successfully designed a full-stack food app using the **MERN stack and Tailwind CSS**.

- ♦ The application caters to multiple user roles, including customers, hotel owners, and administrators,
- ♦ My expertise includes utilizing **React** for dynamic front-end development, **Node.js and Express** for robust back-end services, and **MongoDB** for efficient data management.

E Commerce Website

I have made a brand new e-commerce app from scratch using cutting-edge technologies! 🚀

- ♦ MongoDB for robust database management.
- ♦ React for a seamless and interactive user interface.
- ♦ Express and Node.js for a fast and reliable backend.
- ♦ Axios for efficient HTTP requests.
- ♦ Toast notifications for instant user feedback.
- ♦ Context API for smooth state management.
- ♦ JSON Web Token for secure authentication.
- ♦ Bcrypt.js for robust password hashing.
- ♦ Bootstrap for lay-out
